Education

University of Verona

Verona, Italy

Master's Degree in Computer Engineering (ongoing)

Sep/25 – Present · GPA 27/30

- **Relevant Coursework:** Cryptography, Network Security, Malicious Code, Cybersecurity, Software Security.
- **Thesis** on **CRA** (Cyber Resilience Act) compliance for embedded devices (in collaboration with VT100srl), with a **focus** on cryptographic mechanisms and security protocols underlying compliance requirements.
- **Hands-on practice:** completed a Capture the Flag (**CTF**) training course and solved the first basic **HackTheBox** challenges.

University of Verona

Verona, Italy

Bachelor's Degree in Computer Science

Sep/21 – Sep/25 · GPA 23/30

- **Thesis:** First hands-on experience with full-stack web development, optimizing network traffic by splitting the app into microservices behind a reverse proxy.

Work Experience

Edalab

Verona, Italy

Firmware Developer

Mar/26 – Present

- Developed firmware for custom boards, working from specifications and schematics defined together with the client.
- Recent projects: a water-pipe pressure inverter controller driven over MQTT and BLE, and a coffee/snack vending machine with spiral dispensers and display panel.

VT100srl

Verona, Italy

Software Development / IoT Internship

Oct/25 – Jan/26

- Built an **automatic provisioning system** for new boards, with MQTT (EMQX), backend, and frontend all containerized via Docker.

Lifeguard

Lazise & Verona, Italy

May/23 – May/24 · Jun/26 – Present

- Responsible for the safety of hundreds of swimmers at high-traffic tourist and sports facilities.

Skills

- **Languages:** Italian (native), English (proficient), German (basic).
- **Firmware Skills:** FreeRTOS, ESP32, STM32, ESP-IDF, communication protocols (USB, CAN, BLE, UART, custom protocols), hardware bring-up (wiring, multimeter/oscilloscope, real-time serial monitoring), debuggers, soldering (basic level).
- **Firmware Security:** Secure Boot, Flash Encryption, Secure OTA, key management and exchange protocols.
- **Programming Languages:** C, C++, Python, Rust, Bash scripting, Assembly, TypeScript, SQL, HTML/CSS.
- **Tools and Frameworks:** Next.js, Prisma, Docker, Git, React.js, Postman, Mqtt, Wireshark,

Activities & Interests

Activities: Played the piano for the last 15 years, currently recording a rock album in a studio. I also help organize a few jazz events a year in Verona.

Interests: Gym, swimming and experimenting with new ideas and technologies for personal projects.
